PROFILE

I am a student at the NDT program at the University of Moratuwa, aspiring to become a Full Stack Developer and UI/UX Designer. As a creative individual and a quick learner, I am passionate about designing seamless user experiences and building functional, efficient applications. I am driven to continuously improve my skills and take on new challenges, always aiming to deliver solutions that meet user needs and enhance overall usability.

PROJECTS

TREKTEMPO (WEB AND MOBILE APPLICATION)

Role: UI/UX Designer, Frontend & Backend Developer

Developed TrekTempo, a tourism-focused app to help users explore Sri Lanka. Created cohesive, user-friendly designs for both mobile and web platforms, ensuring smooth navigation and an engaging user experience.

Skills Used: Figma, Flutter, Node.js, MongoDB, React

E-COMMERCE RESTAURANT (WEB APPLICATION)

Role: Frontend Developer

Designed and built a responsive web application for a restaurant's e-commerce platform, focusing on visual appeal and usability for online ordering and payments.

Skills Used: HTML, CSS, JavaScript

PORTFOLIO (WEBSITE)

Role: Web Designer & Developer

Developed a personal portfolio to showcase design and development projects. Prioritized a clean, modern look for effective project presentation.

Skills Used: HTML, CSS, JavaScript
